

MCC FINANCIAL AID WITHDRAW STATEMENT

Even though your account may show a zero balance today, when you withdraw from a class/es, federal regulations require the financial aid department to re-evaluate your financial aid award. This withdraw may result in a decrease in financial aid. This may also affect your academic progress in financial aid and result in probation/suspension.

I understand that withdrawing may result in a balance due, which is not automatically calculated at the time of the withdrawal and that I will be notified within 10 days. Furthermore, I understand that any balance due is my responsibility.

I understand that if I am receiving the MCC Promise and drop below 12 credit hours that I forfeit any future eligibility.

I understand that this slip does not withdraw me from my class, only takes the financial aid lock off my record. I will officially withdraw via MCC internet registration or at the MCC Registration office (A258). The financial aid fax number is: 815-455-8594.
