

GREEN GUIDE '08

The new Green Guide, published by the Lou Marchi Total Recycling Institute at MCC, is now available in print and online. Check it out at www.mchenry.edu/recycling

It is full of new recycling and reusing information, including everything from where to take your old paint and outdated electronics to what to do with no longer usable CFLs bulbs and household chemicals.

The Green Guide also includes *Green Living* a new section about where to buy “green” products locally and online.

Thank you to the Northwest Herald and the organizations and businesses that have advertised in this publication which made this new expanded Green Guide possible.

For more information about the Institute or for other recycling questions, call (815) 479-7817 or click on www.mchenry.edu/Recycling
