

AUTOMOTIVE TECHNOLOGY

This program is certified by NATEF (National Automotive Technicians Education Foundation).

Program Overview

The automotive industry is more technically advanced than ever before. Automobiles are filled with modern technology that requires exceptional technical skills. MCC's Automotive Technology Program can lead students to the lifelong successful career they have been searching for. The program is NATEF Certified and provides state-of-the-art automotive labs. The hands-on training will ensure students' success and prepare them for the automotive industry and many related transportation and maintenance fields.

The automotive program has been a part of MCC for over 30 years, and all of the classes are taught by ASE Master Certified Technicians. Our Automotive Technology degree and certificate programs prepare students for a variety of employment opportunities including automotive repair technicians, lead technicians and service advisors. These positions can be with dealerships, independent auto shops, specialty shops or local and county municipalities. The management degree can lead to positions such as qualified service managers and parts managers.

The courses in this program are arranged in a sequence that provides optimal learning opportunities. Students are encouraged to follow the integrated program sequence.

Program Prerequisites

In order to enroll in AMT 120, 140, 170 and 180, the following is required:

Credit earned for AMT 100, Principles of Automotive Technology, with a minimum grade of C or equivalent.

NOTE: Proficiency tests for AMT 100 and other AMT courses may be taken by appointment. Call (815) 455-8941 for more information.

The primary purpose of an Associate in Applied Science degree is to prepare students for employment. The AAS degree is not designed specifically for transfer; however, there are opportunities to apply some coursework or the whole degree to a bachelor's degree program. For more information, see an academic advisor and the department chair.

AUTOMOTIVE MAINTENANCE TECHNICIAN CERTIFICATES

Many automotive repair facilities are experiencing a shortage of qualified entry-level technicians. MCC's Automotive Maintenance Technician Certificate program is designed to train students for these entry-level positions. The certificate is a 24 credit hour, one-year program. Students attend courses part-time, two days per week, and can complete the program in three semesters.

MCC's Automotive Maintenance Technician Certificate allows students to complete a technical education program, join the workforce, and return to school later to complete the Advanced Automotive Technician Certificate, a 45-47 credit hour program, or an Associate in Applied Science degree.

Requirements for the Automotive Maintenance Technician Certificate

Curriculum: OCC 281	Credit Hours		
Program Core	24	(4) AMT 100 Principles of Automotive Tech. (4) AMT 120 Automotive Electricity Fundamentals (4) AMT 140 Automotive Engine Tech.	(4) AMT 160 Automotive Electronics Fundamentals (4) AMT 180 Auto-Steering-Chassis Suspension (4) AMT 220 Automotive Brake Systems
Total Certificate Credits	24		

Requirements for the Advanced Automotive Technician Certificate

Curriculum: OCC 286	Credit Hours		
Program Core	45-47	(4) AMT 100 Principles of Automotive Tech (4) AMT 120 Automotive Electricity Fundamentals (4) AMT 140 Automotive Engine Tech. (4) AMT 160 Automotive Electronics Fundamentals (4) AMT 170 Manual Drive Train & Axles (4) AMT 180 Auto Steering-Chassis Suspension	(4) AMT 200 Computerized Automotive Systems (4) AMT 220 Automotive Brake Systems (4) AMT 240 Automotive Climate Control Systems (1-3) AMT 250 Automotive Cooperative Internship (4) AMT 260 Advanced Diagnostics & Driveability (4) AMT 270 Automatic Transmissions & Transaxles
Total Certificate Credits	45-47		

Other Certificate Graduation Requirements:

- 2.0 cumulative GPA at MCC upon completion of program
- For certificates of less than 12 credit hours, *all* required credits must be completed through MCC coursework. For all other certificates, one-half of the minimum credit hours required must be completed through MCC coursework.
- Completion of Intent to Graduate Form
- Completion of end-of-program assessment as directed by this department for OCC 286, Advanced Automotive Technician Certificate
