

Sample Education Plan

Associate in Arts (AA)

Area of Focus: Political Science

Please note that the AA degree is not awarded in a specific major or focus area.

This is a SAMPLE plan to help guide you toward courses relevant to your interests while you are deciding on a transfer institution. Suggested courses are based on requirements of several four-year institutions and the Illinois Articulation Initiative (IAI) Political Science Panel. Please note that requirements vary among four-year colleges and universities. It is important to check early with your transfer school and academic advisor to ensure you are taking appropriate courses and meeting all requirements. You will find transfer guides for specific universities on MCC's website: www.mchenry.edu/transfer.

AA Degree Requirements: Area of Focus—Political Science

Students are encouraged to complete an AA degree prior to transfer. A minimum of 60 credits is required for transfer as a junior into a bachelor's degree political science program.

Please refer to MCC's AA degree planning sheet in the current academic catalog for specific degree requirements and course options.

Transfer Notes

Political science is the study of the theory and practice of government and politics. Students of politics describe and analyze political systems and behavior. Bachelor's degree programs offer courses in areas such as public administration, public law, international relations, comparative politics, political behavior, political philosophy, and US government.

Graduates of bachelor's degree programs in political science find career opportunities in areas such as national, state, and local government; the corporate world; legal work; education; governmental affairs; interest groups; and international organizations.

Admission and specific course requirements vary among four-year institutions. Political science majors may have the choice of earning a Bachelor of Arts (BA) or a Bachelor of Science (BS) degree, depending on the school they attend. Some schools require additional math and science coursework for the BS degree. Competency through the second, third, or fourth semester of a single foreign language is required for the BA degree in some schools and for all majors in the College of Arts and Sciences at other schools. Ask about the language requirement of the schools you are considering, and complete the required foreign language courses before transfer. In some cases, two years of foreign language study in high school will substitute for two semesters in college.

A political science major may pursue a program leading to state licensure as a high school teacher. Licensure requirements vary by state. Almost all states require that applicants to teacher education programs be tested for competency in basic skills and undergo a criminal background check.
