2. In regards to the textbook buyback rfp section 4.0 paragraph D, the buyback dollar amount listed looks to be the total amount of money spent during the buyback period, benefits provided by all wholesalers are based upon dollars spent exclusively on wholesale textbooks purchased from students and shipped off campus, not on the value of retail textbooks purchased and retained by the bookstore for use the following semester. With this in mind, could you provide a breakdown of wholesale and retail dollars spent at the buybacks listed in section 4.0?
