

MCC's 50th Documentary update

*Jim Stockwell – Instructor of Film and
Broadcast Journalism*

Acknowledgements...

Special Thanks to all that helped in the
production of the film

Blu-Ray and DVD

Celebrate McHenry County Colleges' Golden Anniversary (1967–2017) in the documentary "Changing Lives – McHenry County College at 50". Hosted by faculty member Jay Geller (Instructor of Theatre) and narrated by fellow faculty member Dr. Todd Culp (Instructor of History) the film looks back at the last 50 years at how the college was formed, transformed, changed... and changed lives. Directed by MCC's Film Instructor Jim Stockwell, shot and edited by the Colleges' Coordinator of Media Development and Technology Training, Pete Lilly, this film combines testimonials of former employees, faculty, students, and administration along with archived footage and pictures, making "Changing Lives" an entertaining and informative look at the first half century of McHenry County College.
