Notes from the MCC Horticulture Department
We offer a wide variety of topics in Horticulture courses at McHenry County College and you do not need to be working on a degree or certificate to take them. Classes marked with an asterisk * on the schedule (on right) have no prerequisites. The double asterisk ** after HRT 112, HRT 120, HRT 150, HRT 205, and HRT 229 indicates available as non-credit option through MCC Continuing Education; if you want to learn the subject matter but do not desire a grade or credit. Look for details in the Fall 2018 Non Credit Course schedule under the Community link on the MCC website www.mchenry.edu.

If you have questions related to the MCC Horticulture Program, contact Horticulture Department Chair & Instructor Bruce Spangenberg; call 815-479-7522 or email bspanenberg@mchenry.edu. Hope to see you in a Horticulture class this fall!

Watch for the brand new MCC greenhouse to open for spring 2019 classes! Construction is underway now to replace the previous greenhouse structure.
