

Summary:

12 out of the 18 public school districts in McHenry County currently have strategic plans uploaded on their websites. SEDOM also has a strategic plan. The links to these plans are provided below. Most of them are 3 or 5 year plans and are current. Student performance & academic achievement, fiscal responsibility and technology & communication are the main themes. However, strong community partnerships are emphasized in most of them, and making or maintaining affiliations with MCC is specifically mentioned in several plans (District #47, #155, #50 & SEDOM). Dual credit options and opportunities with MCC are actually provided in the center of the home page for District 155.

There was a great disparity in terms of detail and terminology for the various plans. All listed a mission statement & visions. Some stated core beliefs, values & commitments. When goals were stated they were not always followed by action step (strategies) or targets, and remained general in many cases. Others provided specific targets in terms of student performance goals, facility changes, technology updates etc.
