

# FELICIA CANNON

---

## ARTIST BIO

---

Felicia Cannon was raised in Clearwater, FL. Her education includes studies in printmaking, painting, and book arts. She holds a BFA in Studio Art from Middle Tennessee State University and an MFA in Printmaking from Illinois State University. She creates compositions that question our relationship to- and understanding of- space. Her images function as poetry, with multiple layers of meaning and intent. Through her work, she aims to stimulate awareness and present questions rather than offering definitive solutions.
