

Bid Title	Welding Robot
Bid #	RFP#03142025_02
Question	Would the customer be open to a CRX-10iA/L robot? It has a longer reach so it works much better for welding applications than the standard CRX-10iA.
Answer	Yes, we would be able to accept the CRX-10iA/L robot for this bid. Tom
Question	I saw the request for a proposal on the welding robot #RFP03142025_02. I was reading through the specs, Are you looking for the BOTX Cabot Welding System? It comes in 2 different part numbers # BOTX XHR and #BOTX XSR. Are either of these systems what you are looking for? Or are you looking for something else entirely?
Answer	The RFQ is for a FANUC CRX-10S with a Fronius power supply. The BOTX system is not a Fronius power supply and will not meet the bid requirements. Tom
