Spring 2014

Department of Applied Technology: Digital Fabrication Maker Lab

Course: AET299 – Digital Design Fabrication I

Bob Mihelich, AIA, NCARB
Co-chair and Instructor, Applied Technology
McHenry County College
Computer Numerical Control (CNC) Machining
Subtractive manufacturing

Laser Cutting
Subtractive manufacturing

3-dimensional Printing
Additive manufacturing
Geometry (CAD) + Tool Path (CAM) + Tool (Equipment)
AET299 - Digital Design Fabrication I
... Fab Lab is the educational outreach component of MIT’s Center for Bits and Atoms (CBA), an extension of its research into digital fabrication and computation.
...thank you
