

Sexual Misconduct Campus Climate Survey

As required under Illinois Law (110 ILCS 155/35), MCC conducted the Sexual Misconduct Campus Climate survey in Spring 2024 to better understand students' perceptions and experiences with issues related to sexual harassment and sexual misconduct. This survey was designed by the Illinois State Board of Education's Task Force on Campus Sexual Misconduct Climate Surveys to provide information about the experiences, behaviors, and perceptions of students in Illinois and was administered at colleges and universities across the state beginning in Spring 2024. This survey includes questions concerning relationships, sexual experiences, experiences with dating violence, and perceptions about safety at MCC during the past 12 months.

MCC administered this survey online through SurveyMonkey from March 18 to April 8. Currently enrolled college credit students aged 18 and older (excluding Adult Education and Dual Credit/High School students) were invited to participate through an email message sent to their MCC student email account that included a general survey link. MCC did not provide incentives for participation in this survey.

In accordance with state requirements, a copy of the College's results from this survey are presented on the pages that follow. Since fewer than 20 respondents completed the survey beyond question 33, all data have been suppressed to maintain respondent confidentiality. As such, data are marked as "NR" (Not Reported).

For any questions regarding the survey please contact Dr. Megan Lombardi, Director of Institutional Research at mlombardi@mchenry.edu.

Part 2: Survey Results (based on participants who completed at least the Sexual and Gender Harassment Module)

Part 2 requires you to report on results of your institution's survey. For all questions in this section, **only report results based on the subset of participants who completed at least the Sexual and Gender Harassment Module or a question after it.** That means participants must have completed through question 33 from the base survey ("33. Many people choose not to tell anyone about experiences of sexual misconduct. This is a very normal response. What led you to choose not to tell anyone about your experience?") or a question after it.

Certain questions were modifiable by institution. These are denoted by two asterisks(). For these questions, you will need to report both the responses you used on your institution's survey, and the number of participants that gave each response.**

Note that the numbering in the reporting template may not match the numbering in your survey, particularly if your institution did not complete the consent module. Please enter data based on the wording of the survey question, and not the question number.
